TARGET AUDIENCE:

This Symposium will be useful for graduate students, postdoctoral fellows/trainees and early-stage professionals in academia, government and industry.

GOALS & OBJECTIVES:

Following the completion of this activity, the learner will be able to:

1. Identify writing skills which are essential for the communication of scientific research and work;
2. List the key steps of outlining, drafting, editing and submitting a manuscript to communicate research to the scientific community or within current careers in clinical pharmacology;
3. Demonstrate the process of writing, reviewing, editing and revising draft scientific manuscripts to improve the likelihood of acceptance and provide a high-quality revised manuscript;
4. Describe different manuscript formats (brief reports, short communications, expert opinions, full-length articles and review articles), journal differences and appropriate supporting documents/supplemental material that are necessary for communication of scientific research.
