Goal and Objectives

After completing this activity, the learner will be able to:

- 1) Describe why the peer review process is important;
- 2) Explain how to review various sections of a scientific manuscript;
- 3) Identify elements of writing a review that will be of benefit to the authors and to the Editor of the Journal.

Requirements to Receive Credit

In order to receive CE credit, the learner must register for the educational activity, attend the live ACCP Virtual Journal Club webinar or watch the recorded webinar, complete the online post-event assessment (test) with a score of 75% or higher, complete an online evaluation and print their certificate.

Schedule & Fees

The ACCP webinar programs occur several times per year. Registration for the webinars are required but are free of charge to all learners.

Acknowledgement of Financial Support

No financial support was received for this educational activity.
