Who We Are

VISION & MISSION

• To improve health by optimizing therapeutics;
• Provide innovative leadership and interdisciplinary education that will enable the generation, integration and translation of scientific knowledge to optimize research, development and utilization of medication for the benefit of all.

ACCP continues to be an organization focused on meeting the needs of its Members and Annual Meeting Attendees. With a vision of the value that clinical pharmacology brings to the future of drug development and healthcare, ACCP strives to provide healthcare professionals and scientists with a forum for the exchange of knowledge on topics ranging from research and drug development to clinical care.

ACCP’s diverse global membership is dedicated to improving the quality of patient care by optimizing the use of therapeutics. ACCP achieves this by providing Continuing Education to a broad range of clinicians and healthcare professionals spanning the scope of research and drug development to patient care. In support of improving patient care, the American College of Clinical Pharmacology® is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team. Individuals can participate in Live meetings, journal CE activities, Live webinars or On Demand educational courses that provide a forum for new scientific ideas and bring together healthcare professionals of various disciplines to discuss areas of common interest. “We value our relationship with ACCP and enjoy Sponsoring and Exhibiting at the Annual Meeting. The team at ACCP always listens to our feedback to make sure that we are finding value in our investment. The Annual Meeting is a more intimate conference than some others we attend, which allows us to have more in-depth conversations with the clinical pharmacology community.”
