***A Review of Cannabis and Interactions With Anticoagulant and Antiplatelet Agents***  
April 2020 – *The Journal of Clinical Pharmacology* (JCP)

## ***Why is this article important to you?***

Legalization of medical cannabis has occurred in 33 states and the District of Columbia, and recreational use has increased exponentially since 2013. As a result, it is important to understand how cannabis interacts with other drugs and has potential risks for patients on concomitant medications. Learners that complete this activity will be able to identify the current gaps in research and challenges in patient care as it pertains to drug-drug interactions between cannabis and oral anticoagulant and antiplatelet medications.

## **Joint Accreditation Statement**

In support of improving patient care, the American College of Clinical Pharmacology® (ACCP) is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE) and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

**UAN: JA4008220-0000-20-036-H01-P** – ACPE 1 Contact Hours

**Activity Type:** Knowledge-based **Format:** Home-study **Target Audience:** 'P'

## **ACCME Designation Statement**

The Accreditation Council for Continuing Medical Education designates this Journal CE activity for 1 *AMA PRA Category 1™* credit. Physicians should only claim credit commensurate with the extent of their participation in the activity.

## **Target Audience**

Interprofessional team of Physicians, Pharmacists, PhDs, Nurse Practitioners and Physician Assistants.

## **Learning Objectives**

After completing this activity, the learner will be able to:

1. Describe the common mechanisms and resultant effects of drug-drug interactions between cannabis and oral anticoagulants and antiplatelets;
2. Identify the current challenges in the conduct of drug-drug interactions in the United States between cannabis and concomitant medications;
3. Discuss risk mitigation strategies for adverse effects associated with the concomitant use of cannabis and oral anticoagulant and antiplatelet agents.

## **Requirements to Receive Credit**

In order to receive continuing education credit, the learner must register for the educational activity, study the provided journal article and complete the online learning Post-event Self-assessment, as well as the online course Evaluation and CME/CPE Certificate. Credits and CME/CPE Certificates must be claimed within thirty (30) days of completing the article, Post-event Self-Assessment and Evaluation. Contact [CE@ACCP1.org](mailto:CE@ACCP1.org) with any questions.

**Disclosures:**

Article Selection: Joseph S. Bertino Jr, PharmD, FCP, FCCP, Editor-in-Chief, JCP and Owner, Bertino Consulting Inc. Nothing to disclose.

Planner: Jomy George, PharmD, BCPS, AQ-ID, Director, Clinical Pharmacokinetics Research Lab, National Inst of Health. Nothing to disclose.

CE Reviewer: Brooks McPhail, PhD, Clinical Assistant Professor, Pharmacology, Univ of South Carolina School of Medicine Greenville. Nothing to disclose.

**Schedule & Fees**

JCP monthly Journal CE articles are generally released on the 1<sup>st</sup> or 2<sup>nd</sup> Tuesday of each month. They are priced in packages of January to December for each year. Packages are available at no cost to ACCP Members and \$75/calendar year to Non-members. Once you register, you have access to all of the Journal CE articles for the calendar year.

**Acknowledgement of Financial Support**

No financial support was received for this educational activity.

**Home Study Initial Release and Expiration Dates**

**Date of Issuance:** 04/01/2020

**Expiration Date:** 12/31/2022
