Quetiapine-Induced Thyroid Dysfunction: A Systematic Review
January 2022 – *The Journal of Clinical Pharmacology* (JCP)

Why is this article important to you?

Thyroid abnormalities are documented consequences of quetiapine treatment. This may have clinical implications as changes in thyroid hormones may deteriorate a person's affective state. Yet less is known about the clinical factors and underlying mechanisms associated with thyroid hormones on quetiapine therapy. This article systematically reviewed the published literature of evidence of quetiapine-induced thyroid abnormalities. Learners that complete this CE activity will be able to examine and learn about the reported thyroid abnormalities associated with quetiapine pharmacotherapy.

ACPE Accreditation Statement

The American College of Clinical Pharmacology® is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education.

UAN: 0665-0000-22-001-H01-P – ACPE 1 Contact Hours

Activity Type: Knowledge-based **Format:** Home-study **Target Audience:** 'P'

ACCME Accreditation Statement

The American College of Clinical Pharmacology® is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

ACCME Designation Statement

The Accreditation Council for Continuing Medical Education designates this journal CE activity for 1 *AMA PRA Category 1™* credit. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Target Audience

Interprofessional team of Physicians, Pharmacists and PhDs.

Learning Objectives

After completing this activity, the learner will be able to:

1. Describe the incidence or risk of thyroid abnormalities in patients on quetiapine;
2. Identify the clinical factors associated with thyroid abnormalities in patients on quetiapine;
3. Discuss the underlying mechanisms of quetiapine-induced thyroid dysfunction;
4. Provide therapeutic options for treatment of quetiapine-induced thyroid abnormalities.

Requirements to Receive Credit

In order to receive continuing education credit, the learner must register for the educational activity, study the provided journal article and complete the online learning Post-event Self-assessment, as well as the online course Evaluation and CME/CPE Certificate. Credits and CME/CPE Certificates must be claimed within thirty (30) days of completing the article, Post-event Self-Assessment and Evaluation. Contact CE@ACCP1.org with any questions.

Disclosures:

Article Selection: Joseph S. Bertino Jr, PharmD, FCP, FCCP, Editor-in-Chief, JCP and Owner, Bertino Consulting LLC. Nothing to disclose.

Planners: Michael W. Jann, PharmD, Professor, Univ of North Texas System Coll of Pharmacy. Has no relevant financial relationships with ineligible companies.

CE Reviewer: Steven J. Crosby, MA, Assistant Dean, MCPHS Univ.

Schedule & Fees

JCP monthly Journal CE articles are generally released on the 1st or 2nd Tuesday of each month. They are priced in packages of January to December for each year. Packages are available at no cost to ACCP Members and \$75/calendar year to Non-members. Once you register, you have access to all of the Journal CE articles for the calendar year.

Acknowledgement of Financial Support

No financial support was received for this educational activity.
