

ACCP

AMERICAN COLLEGE OF CLINICAL PHARMACOLOGY®
Advancing Clinical Care through Pharmacology™

Why become a Fellow in ACCP?

Fellowship is the highest category of membership granted by ACCP and, as such, is awarded to those with exemplary credentials and dedication to the betterment of the discipline and provides an opportunity to shape the future of clinical pharmacology. Becoming a Fellow in ACCP is a recognition by your peers of an experience level or a milestone in professional achievement that provides opportunities to participate and contribute to the society at a higher level. Being a Fellow provides a sense of community and collegiality and it acknowledges that you are part of a respected scientific society where one can exchange scientific knowledge. Those who are Fellows effectively serve as Ambassadors of the society to the greater clinical pharmacology community. The FCP acronym implies a certain prestige and pride in the greater clinical pharmacology community and opens doors to talk about ACCP and clinical pharmacology to those who are interested. Fellows are frequently selected to chair committees and may be elected to serve on the Board of Regents or as an Officer that governs the society.

How to apply for Fellow

Applications for Fellow will be considered for any applicant that meets the requirements as specified below. ACCP Members wishing to become a Fellow must begin by logging in and **updating their profile** on the ACCP website. In addition, they must send a **current CV** and **two Letters of Support from current ACCP Fellows** to **KLevy@ACCP1.org**. **Applications require the approval of the Board of Regents and must be submitted no later than 30 days prior to the next Board of Regents' Meeting, as noted below:**

Requirements for Fellowship are as follows:

- An earned terminal degree in any of the healthcare professions or any biomedical or pharmaceutical science (PharmD, PhD, MD, MBBS, Nurse Practitioners and Physician Assistants);
- At least five (5) years of experience beyond postdoctoral training in basic or clinical pharmacology;
- Three (3) years as an actively participating and constructive Member of ACCP;
- Two (2) letters of recommendation from current ACCP Fellows.
- Evidence of meritorious work which is acceptable to the Credentials Committee and the Board of Regents, including at least two (2) criteria from the following list:

- Any combination of five (5) publications in indexed and peer-reviewed journals and/or patents received within the past five (5) years;
- Receipt of national or international recognition or awards in clinical pharmacology or related fields, excluding trainee awards;
- Board certification from the American Board of Clinical Pharmacology and/or Certification by the Board of Pharmaceutical Specialties;
- Editor or Editorial Board member of a peer-reviewed, professional journal indexed by the National Library of Medicine that includes substantial content relevant to clinical pharmacology.

In order to facilitate the review of your application for Fellow, it is **required** you **assess your skills and experience against the requirements** and submit a statement of your credentials to Staff with your application materials for inclusion in the materials for review by the Credentials Committee.
