

# 2021 ACCP Webinar

## *How to Make ACCP Member Benefits Work for YOU!*

Live Session: Wednesday, June 16, 2021 from 2:00 to 3:00 PM ET

On Demand: June 16, 2021 to June 16, 2024

### ***Why is this webinar important to you?***

ACCP is a flagship society with a global reach and offers a wealth of benefits for its Members. Unfortunately, the full array of benefits available to Members and how best to leverage them may not be fully recognized. This webinar will inform Members, or those considering membership, of the diverse benefits available through ACCP. Using their own experiences, our Faculty Speakers will discuss Member Benefits and note the various professional milestones one can achieve through society involvement. Specific topics will include career advancement, educational opportunities, as well as gaining visibility and finding community in the field of clinical pharmacology. As the professional needs of ACCP Members tend to change throughout a career trajectory, our Faculty Speakers have been selected to represent viewpoints from early, mid and senior-level career stages. In addition to being recognized as leaders and experts in their disciplines, each of our Faculty Speakers has extensive experience within ACCP.

When society members harness the benefits available to them it creates a virtuous cycle. As Members become more familiar with the advantages of membership, satisfaction and society engagement increase, and in turn, the clinical pharmacology community is strengthened. Additionally, Members who understand and use their society benefits can be effective in outreach to others who may benefit from joining ACCP. We hope this discussion of ACCP Member Benefits through the lens of personal stories of success will be of help to current Members in finding new ways to engage with their colleagues or for those considering society membership to see ACCP as a unique and valuable opportunity.

Video clips from the 50th anniversary will also be incorporated into this presentation.
